We'll be rotating our beer taps regularly between a selection of Australia's best craft brewers, showcasing some of the great things that are happening in craft beer and cider all over Australia.

# WINE ON TAP

---

We are always looking at ways to reduce our impact on the environment. Wine on tap is something that we'd seen done well overseas and wanted to give it a go – now we have a 56 tap system, pouring all of our beer, cider, sparkling water and many of our wines. By using this system and making our own soft drinks, we've been able to save around 9,000 bottles per month, as well as the energy and resources that go into their production, transport and disposal.

As for the wine, it seems to love it. By transporting the wine in bulk containers, then transferring it into our stainless steel kegs, the wine sees no oxygen until it hits your glass or our carafes. We deal with producers that put their hearts into what they do and they wouldn't send us wine if we weren't looking after it. The proof is right here, so feel free to ask your server to taste a couple!

# ABOUT OUR WINE

---

All the wine we offer at Three Blue Ducks reflects our ethos...

1. We focus on wines made from grapes grown using organic or biodynamic practices in the vineyard. If it's good for the earth, it gets our backing!
2. The wines we sell are all high-quality wines – it just comes down to personal taste.
3. We buy from smaller, independent winemakers and wineries. Wines on our list are made with integrity and the utmost care.
4. We support the local Aussie wine industry. Aiming for low 'food miles' means we offer a lot of beautiful Australian wine and limited international wine.

From there, broadly speaking, our wine list can be divided into two main approaches – hands off or hands on. We believe there is a time and place for both.

## HANDS OFF WINE

Hands off wine is a hail to 'back to basics', where the grower and winemaker have used minimal interventions during the growing and making process. Avoiding modern aids and technology, this yields a product that varies between vintages according to season, sunshine and the fruit. These wines may have flavour profiles, textures and appearances you might not have expected when reading the list.

## HANDS ON WINE

Hands on describes wines where growers and winemakers use contemporary techniques in the vineyard and winery to achieve meticulous control. Their intention is to guide their product to a desired endpoint. These wines have a stylistic aim and a 'hand' in achieving them, whether it be use of new oak, irrigation, or the blending of components.

We want wine to be approachable, but recognise that sometimes it isn't! So, we've grouped wines with their like-minded friends to help guide you, if you need it. But mainly we have really trained our team. Ask their advice – they would love to share what they know!
