Our aim is to share what real food and beverage mean to us, by showcasing the best quality local suppliers. We source ethically made, independently produced beverages to complement your dining experience. What we have gathered here is some of our local favourites from the Northern Rivers and its surrounds.

ABOUT OUR WINE

Because we're really passionate about doing our part for the planet, we've made sure to highlight on our menu the wines made from organically farmed grapes. This way, you can easily choose wines that match your personal values and show support for those who are dedicated to the principles you find important.

Natural wine? The wines on our menu that have this denoted next to them are made by the most dogmatic of producers. Sticking rigidly to using no chemicals or heavy machinery, avoiding preservatives and modern manipulations of their wines. This is how wines were made thousands of years ago. Expect the unexpected here, the wines can be cloudy, spritzy, lively and often they do not have the typical flavour profiles associated with modern day examples. There is a raw beauty in this style of wine, that's why we've listed a few of them of course!

WINE ON TAP

We are always looking at ways to reduce our impact on the environment. Wine on tap and wine in lower impact vessels is something we've seen a resurgence of in the last few years. And we are here for it!

By using a tap system we save thousands of bottles per month! Not only the bottles themselves but also saving the energy and resources that go into their production, transport and disposal.

As for the wine, ask the experts, it's better for the wine. By transporting the wine in bulk containers, then transferring it into our stainless steel kegs, the wine sees no oxygen until it hits your glass or our carafes.

We work directly with producers that put their hearts into what they do and that make wine specifically for our taps. No compromise on quality whatsoever! The proof is right here, so feel free to ask your server for a taste!
