

WE LOVE LOCAL!

The best beverages, sourced locally.

At the heart of Three Blue Ducks are the people; the roasters, brewers, winemakers and distillers. Our aim is to share what real food and beverage means to us, by showcasing the best quality local suppliers. We source ethically made, independently produced beverages to compliment your dining experience.

We love Australia, the land we get to live and work on. Victoria boasts 21 wine regions, making it the state in Australia with the highest number of distinct regions. That means, there is a huge variety of land and climates for growing and hand crafting, carefully considered Victorian wines. Here we are aiming to champion the bright, independant producers of Victoria.

Because we really believe in doing our bit for the planet we have denoted on our menu when the grapes have been farmed organically. So you can support the people who are practising the way you believe is important even with your wine choices!

ORANGE/AMBER

So although this may appear as a new type of wine to you, orange wines have been around since wine has. Calling them 'orange' is a relatively recent thing (2010 approx). These are wines made with green grape varieties that are left to macerate and ferment on skins much like how red wines are made.

ROSÉ

Rosé has weathered a few storms of mass production and insincerity over the years. Remember don't judge a rosé by its colour, the colour of the rosé has nothing to do with whether it is dry or sweet.

A staple of the Australian wine landscape- red wine makes up the largest proportion of production in Australia. However these days producers are starting to focus more on reds that are suitable for our warm weather and the style of dining we lean towards.
