

OUR APPROACH TO SOURCING DRINKS

Interesting, innovative, ethical & local!

At the heart of Three Blue Ducks are the people; the roasters, brewers, winemakers and distillers. Our aim is to share what real food and beverage means to us, by showcasing the best quality local suppliers. We source ethically made, independently produced beverages to complement your dining experience.

Because we're really passionate about doing our part for the planet, we've made sure to highlight on our menu the wines made from organically farmed grapes. This way, you can easily choose wines that match your personal values and show support for those who are dedicated to the principles you find important

The Ducks

WINE ON TAP

We are always looking at ways to reduce our impact on the environment. Wine on tap and wine in lower impact vessels is something we've seen a resurgence of in the last few years. And we are here for it!

By using a tap system we save thousands of bottles per month! Not only the bottles themselves but also saving the energy and resources that go into their production, transport and disposal.

As for the wine, ask the experts, it's better for the wine. By transporting the wine in bulk containers, then transferring it into our stainless steel kegs, the wine sees no oxygen until it hits your glass or our carafes. We work directly with producers that put their hearts into what they do and that make wine specifically for our taps. No compromise on quality whatsoever! The proof is right here, so feel free to ask your server for a taste!

ORANGE/AMBER

So although this may appear as a new type of wine to some of us, orange wines have been around since wine has. Calling them 'orange' is a relatively recent thing (2010 approx). These are wines made with green grape varieties that are left to macerate and ferment on skins much like how red wines are made.

2021 Chateau Acid 'Bianco', Vermentino, Cowra, NSW | 89
+certified organic, +natural, skin contact giving body, texture & intrigue

ROSÉ

Not to be overlooked, rosé has weathered a few storms of mass production and insincerity over the years. Rosé made with intention can be profound and taken just as seriously as red or white wines. Remember don't judge a rosé by its colour, the colour of the rosé has nothing to do with whether it is dry or sweet.
