

WHAT WE LOVE!

The best beverages, sourced locally.

The best beverages, sourced local & afar. The Ducks is all about enjoying food and drink with your mates and loved ones. At the heart of Three Blue Ducks are the people; the roasters, brewers, winemakers and distillers.

Our aim is to share what real food and beverage means to us, by showcasing the best quality of our local suppliers and afar. We source ethically made, independently produced beverages to compliment your dining experience. What we have gathered here is some of our local favourites from Sydney, its surroundings and sometimes across the water.

TOP PICKS

Travla 'Australia's Lager', Australia

A classic Australian style lager, Travla is Country-grown, Country-brewed and Country-owned. Can't say that about many of your classic "Aussie" beers! Our very own Andy Allen (co-owner of Three Blue Ducks) is one of the founders of this Australian lager from all-Australian ingredients. We're pretty bloody proud to be stocking Travla, you should give it a go!

2022 Ruggabellus 'Sallio', Riesling, Muscat, Eden Valley, SA

Ruggabellus - meaning 'rugged beauty' - is one of the breakaway producers of the much written about 'New Barossa' movement. If you're getting into skin contact white wines, there is simply no better place to start than the great expert work from the masterful Abel Gibson.

ABOUT OUR WINE

We're committed to supporting the planet, which is why we've highlighted wines made from organically farmed grapes on our menu. This makes it easy for you to choose wines that align with your values and support producers who share your commitment.

Alongside our selection of organic wines, we also offer selections from well-known producers hailing from classic wine regions that we all know and love. These familiar names and trusted vineyards ensure that every glass you sip is crafted with quality, delivering a satisfying and enjoyable experience with every sip

WINE ON TAP

We are always looking at ways to reduce our impact on the environment. Wine on tap and wine in lower impact vessels is something we've seen a resurgence of in the last few years. And we are here for it!

By using a tap system we save thousands of bottles per month! Not only the bottles themselves but also saving the energy and resources that go into their production, transport and disposal.

As for the wine, ask the experts, it's better for the wine. By transporting the wine in bulk containers, then transferring it into our stainless steel kegs, the wine sees no oxygen until it hits your glass or our carafes.

We work directly with producers that put their hearts into what they do and that make wine specifically for our taps. No compromise on quality whatsoever! The proof is right here, so feel free to ask your server for a taste!

ORANGE

So although this may appear as a new type of wine to you, orange wines have been around since wine has. Calling them 'orange' is a relatively recent thing (2010 approx). These are wines made with green grape varieties that are left to macerate and ferment on skins much like how red wines are made.

ROSÉ

Rosé has weathered a few storms of mass production and insincerity over the years. Remember don't judge a rosé by its colour, the colour of the rosé has nothing to do with whether it is dry or sweet.
